

We are looking for a Front-End Engineer to join the beets&roots tech team in Berlin.

Front-End Engineer (f/m/d)

ABOUT US

Beets&roots was founded by a Michelin star chef and a business entrepreneur. The inspiration? The lack of freshly prepared, healthy lunch options throughout Germany. The motivation? To become the destination for delicious, seasonal, health-conscious food. We are German with international flair: from our diverse team to our globally-inspired menu. Serving good vibes and food in 9 Restaurants across Berlin, Hamburg, Frankfurt, Düsseldorf and Stuttgart. Opening 10 restaurants in the next 12 months.

JOB DESCRIPTION

- You develop new user-facing features using React.js
- You build reusable components and front-end libraries for future use
- You translate designs and user stories into high quality code
- You optimize components for maximum performance across a vast array of web-capable devices and browsers

REQUIREMENTS

- 3+ experience as a fronted developer
- Experience in SaaS or E-Commerce is a plus
- Familiarity with React.js and its core principles along with familiarity with cloud stacks like AWS
- Familiarity with GraphQL and Redux
- CSS Framework experience (Bootstrap or similar)
- You are fluent in English

OFFER & BENEFITS

- Competitive Salary
- International and dynamic team in the hotspots of Berlin.
- Beets Benefits (free food, coffee&water, BVG Ticket)
- Beets, Beats & Beer Fridays & other team events.
- Attractive career opportunities in a fast-growing environment
- Fully remote possible
